**INTEGRATED WITH
SALESFORCE.COM
PRODUCTS**

KEY ELEMENTS AND DIFFERENTIATORS

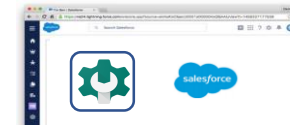

AGILE APPS DEVELOPMENT. TAILORED TO BUSINESS NEEDS

Framework and SDK to build apps out of the box; given the technical architecture of UpToCloud, it can implement and to suit to **any process** quickly. **Salesforce Lightning Experience** out of the box

ADMINISTRATION CONSOLE

It can be administered **isolated** or **integrated into Salesforce.com**

USER ADOPTION AND ACTIVITY TRACKER. GDPR Compliance / audit trail and logs.

ONLINE & OFFLINE MODEL

Full offline without any limit, that allows the access to **any** Salesforce.com object (costumed or standard).

Customer, Opportunities, CPQ, Offers, Product, Order entry, Agenda, Case management, **ERP / ESB/ Core systems data**, etc.
Including Office documents

MULTI DEVICE

Works for **any** operating system and multidevice

NATIVE COMPONENTS INTEGRATION

It has already integration with **native components** on the devices (signature, barcode, camera, phone call, finger print, geolocation) and it can integrate with any 3rd party mobile apps.
